EXPERIENCE

Skelementor <i>Lead Software Engineer · 10 mo</i>	Dhaka, Bangladesh Nov 2025 - Present
- Delivered a multi-tenant SaaS platform in Next.js/Supabase, migrating existing users and subscriptions; implemented Stripe and LemonSqueezy billing for trials, team seats and subscription access. - Reduced initial component loading from 2-3s to 400-800ms for a 30-item page in a 1,600+ component catalog through indexed database queries, pagination and smaller payloads; integrated Typesense search. - Built internal project tracking and sales workflow tools to consolidate milestones, activity logs, lead records and outreach history for team coordination and follow-up. - Developed a hosted MCP preview enabling AI assistants to access and edit WordPress content, with OAuth authentication, subscription access controls, revision checks and audit/rollback support. - Developing a unified WordPress plugin for component browsing and AI-assisted editing; maintained existing plugins and shipped CSS imports into Elementor's global classes and variables.	
Skelementor <i>Software Engineer (Probation) · 2 mo</i>	Dhaka, Bangladesh Sept 2025 - Nov 2025
Built a visual design system editor that generates responsive CSS from reusable tokens; shipped a WordPress/Elementor plugin and documentation to import those styles into website projects.	
The Data Island <i>AI Engineer (Remote) · 4 mo</i>	Thomson Grand, Singapore Apr 2025 - Aug 2025
Led development and deployment of enterprise AI applications for clients including UNDP using AWS Bedrock, ECS and Lambda; automated containerized deployment and scaling with Docker.	
The Data Island <i>Machine Learning Intern (Remote) · 1 mo</i>	Thomson Grand, Singapore Mar 2025 - Apr 2025
Developed computer vision pipelines for Ulens, a Unilever client project, and prepared annotated datasets for model training.
